MEETING IN SALT LAKE

FOUR-CLUB LEAGUE TO BE FORMED IF BUTTE FAILS.

(Special to The Herald.)

Butte, March 20.—The committee in charge of the organization of the Butter baseball club has asked for further time in which to decide whether the mining town wants a place in the Pacific National league. The total sum raised to support a club is \$3,000 up to date, but it is thought the team ought to have a larger fund to begin operations.

The committee has therefore asked for further time in which to raise this amount, and will give its final answer at a meeting called for Friday evening. President Rishel left this afternoon for Salt Lake, and C. H. Williams returned to Spokane. It is likely a meeting will be called at Salt Lake the latter part of this week to organize Salt Lake, Ogden. Boise and Spokane in a league if Butte fails to come in.

But what-fer the will place a team in the league will be formed with Salt Lake, ond C. H. Williams returned to Spokane. It is likely a meeting will be called, possibly the latter part of the week, and the league will be called, possibly the latter part of the week, and the league will be called, possibly the latter part of the week, and the league will be organized with four teams.

Hinge Question On.

Los Angeles, March 26.—Harold Chase, first baseman of the Los Angeles team, who was drafted by Clark Griffiths, manager of the New York American league club, has decided to remain on the Pacific coast and today signed a contract to play with the Los Angeles team during the coming, season. Chase's case has been causing a great deal of comment in the press, the eastern magnates being inclined to hinge the entire question of drafting players on this particular player. Manager Morley stated today that he had signed Chase with the understanding that war had been declared between the American league and the Class A minor leagues.

(Special to The Herald.) (Special to The Herald.)

Laughlin is in receipt of many offers from ambitious amateurs who are anxious to be with the championship team. TO ORGANIZE A BALL TEAM AT OGDEN

(Special to The Herald.)

Ogden, March 20.—A telegram received tonight in Ogden from President W. D. Rishel of the Pacific National league stated that he, together with Harrison O. Shepard, secretary of the Salt Lake team, and Walter Wilmot, would arrive from the north this morning and would meet with a number of their Ogden friends to discuss the organization of the Ogden team.

weight."

"Why?"

"Strength is all a matter of leverage," replied Captain Godfrey. "The size of a man's muscles hasn't anything to do with his strength or his hitting power. Everything depends upon the leverage at the joints. If a man has a good, long elbow joint then he has a strong arm. It doesn't take a big muscle to move it if there is rood leverage. Do you remember what Fitzsimmons' elbow looks like?"

"I did. Fitz has bony elbows. The muscles are long and not at all extraordinary in size. But his elbows stick out in bony bumps."

"That's where Fitzsimmons' great hitting power comes in," declared Captain Godfrey. "All of his joints are long. There is plenty of leverage. His muscles are under good nerve control—the leverage does the rest."

The theory looks good. Take "Kid Mc-Coy," for instance. He is one of the hardest hitters that ever donned a glove. Mc-Coy's elbows stick out like bumps on a blackthorn. He is long and loose and limber, but he is bony wherever a joint shows.

So is Jeffries. I have noticed many a time that the big fellow's joints stick out as if they were enlarged. His wrists, his elbows, his knees, all of his joints that are not entirely covered from view by masses of muscle, are big and bony. Jeffries' knees, particularly, show tremendous leverage. I remember that Walter Christy, the great sprinter, looked Jeffries over at the time of his last fight with Corbett and said that he had the knees and the legs of a ten-second man.

So, if you don't happen to be muscled like Sandow, why, stop worrying. You may have the leverage, and true strength lles there, instead of in bunches of tissue like the bumps on a camel's back.

HINTS TO BEGINNERS. First Aid to the Owner of a New Automobile.

(Life.) One of the first things required of the genuine automobilist is that he mustn't know anything about it. And the second is like unto the first, which is that a man should disregard his neighbors as much as he loves himself. These things being understood in the begin-ning, your standing among the fraternity is assured. Here are, in addition, a few minor matters that need attention: When you start out, be sure that your mixture is correct: Put about five gallons of 76 gasoline into your tank, and add to this a couple of highballs for yourself. You will be surprised how much better the machine will run. Upon the extreme care and minuteness Los Angeles, Cal., March 20.—The second division of the Chicazo National league baseball team played the Los Angeles team at Chutes park today and won by the score of 4 to 1. The Chicagoans made all their runs off Pitcher Hall in the first inning. After that they could do nothing with the local pitchers. Hall pitched five and Toren four innings. Los Angeles made her only run in the second inning on a couple of hits.

tool you will most certainly need, and leave it carefully behind you. After a while this will become second nature, so that you won't even have to think about it. Remember, that to keep your auto in the best condition, you must lubricate it constantly. To do this suc-cessfully, use, say, one-half as much cylinder oil on the machinery as you use on yourself. By and by you can tell by the way you feel whether every-thing is in good running shape or not. Do not be discouraged if your carburetter gives out, your batteries lay down on you, your connecting rod refuses to connect or you are confronted by a missing link in your chain. You are, of course, able to support yourself in luxury and discomfort, or you wouldn't have a motor car, anyway; so remember, that many a man who has more money than you has had the same Tommy Markham of Robinson has agreed to meet Bert Danford of Logan in a twenty-round contest; and the bout will be pulled off, undoubtedly, under the auspices of the Salt Lake Athletic club the latter part of the month. The articles have not been signed, but Danford has agreed to meet any man of his weight that the Salt Lake club will produce. Markham was reached last night by telephone and he said that he would be in Salt Lake City in a couple of liders and be ready to commence training. The management of the club will telephone to Danford today, and it is expected the articles will be signed this week.

Markham said last night that he was anxious to meet Danford and show the sporting element of Salt Lake that he is still in the game and can fight. He says that he can make 140 pounds, or even 135 at 3 o'clock in the afternoon of the bout. These men will, no doubt, put up a good fight. Markham has fought with Jack of the Balt Lake sports when weight. These men will, no doubt, put up a good fight. Markham has fought with Jack always fought from start to finish. He shad take eveloped a good hard punch and is now in better condition than ever. Danford has already shown his punch to the Salt Lake sports when he whilpped Billia to be training every day and is now in good dondition.
